**SUBJECT: Great News from Assyst Real Estate!
TD Canada Trust to Use TELUS' Assyst Real Estate**

TELUS has completed an agreement with TD Canada Trust for the use of TELUS' Assyst Real Estate to process mortgage transactions electronically.

With the addition of TD Canada Trust, TELUS' Assyst Real Estate is now the standard in the mortgage industry for electronic instructing to the legal community in Canada.

TELUS' online mortgage solution is becoming the solution of choice for the legal community to complete mortgage transactions electronically. TELUS' Assyst Real Estate is the only national solution that seamlessly and securely links lenders to the legal community to execute mortgage files online, simplifying the way a mortgage transaction is instructed, processed and reported. Through TELUS' Assyst Real Estate, lenders can send mortgage instructions electronically to lawyers, notaries and their staff in real time. In turn, professionals can complete mortgage transactions from end to end online, in a more secure and confidential manner, while reducing paperwork, cutting back on costs, and decreasing the likelihood of clerical errors.

TELUS' Assyst Real Estate is a bilingual, proven and reliable solution being used by more than 2,800 notaries and lawyers, having processed more than 800,000 real estate transactions in Canada since the solution was launched in 2002.

TD Canada Trust's implementation of TELUS Assyst Real Estate will begin on June 7, 2010.
